

MongoDB

```
#
cd /home/jj
#
wget
http://downloads.mongodb.org/linux/mongodb-linux-x86_64-rhel70-3.2.12.tgz?_ga=1.28205556.912007513.1487138979
#
tar -zxvf mongodb-linux-x86_64-rhel70-3.2.12.gz
#
mv mongodb-linux-x86_64-rhel70-3.2.12 mongodb
#
mkdir -p /data/mongodb/data/db
mkdir -p /data/mongodb/logs/
touch /data/mongodb/logs/mongodb.log
#
mkdir mongodb/conf
vim mongodb/conf/mongo.config

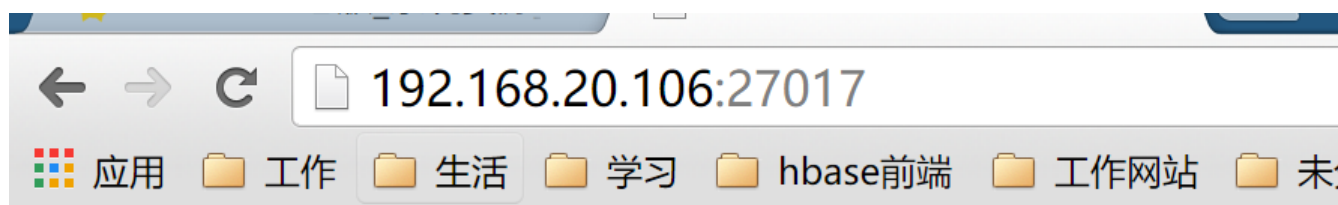

mongo.config
dbpath=/data/mongodb/data/db
logpath=/data/mongodb/logs/mongodb.log
port=27017
fork=true
logappend=true

#
mkdir -p /etc/mongodb/conf
ln -s /home/jj/mongodb/conf/ /etc/mongodb/conf
#path
vim /etc/profile.d/mongodb.sh

mongodb.sh
export MONGODB_HOME=/home/jj/mongodb
export PATH=$MONGODB_HOME/bin:$PATH

#
source /etc/profile.d/mongodb.sh
#mongod
mongod --config /etc/mongodb/conf/mongo.config
#
mongod --dbpath=/data/mongodb/data/db --logpath=/data/mongodb/logs/mongodb.log
--logappend --port=27107 --fork
```

Weblocalhost:27017,

It looks like you are trying to access MongoDB over HTTP on the native driver port.
